

Special LEDS Headlight bulbs

 Le lampade a **LED** serie **PH** sono state costruite su misura per alcuni modelli di vetture. Si caratterizzano per la forte luce generata dal chipset **Luxeon Z-Es** prodotto da **Lumileds**®.

 **PH** series led bulbs are custom designed for some cars with specific technical issues. These bulbs stand out for the strong brightness generated by chip led **LXZ2-5770** from **Lumileds**®.

- Porsche Macan

XL H15 PH

Kit spegnispia con lampade P21/5W o W21/5W specificatamente studiati per le vetture del **gruppo FCA** come Alfa Romeo Mito, Fiat 500, 500L, 500X e Panda oltre che Jeep Renegade.

Questi kit sono compatibili con qualunque veicolo dotato di lampade W21/5W e/o P21/5W.

These kits are composed by a pair of led lamps and a pair of warning cancelling devices and have been specifically designed, for FCA group cars like Fiat 500, Alfa Romeo Mito, Jeep Renegade and many others. The reasons is that such cars are prone to dashboard warning alarms whenever you upgrade them with led lamps.

Although designed for FCA group car, these kits are suitable for any car equipped with W21/5W and/or P21/5W lamps

KIT-67040

Kit components:

- 1 pair HID-67 warning cancelling device
- 1 pair LED-040 P21/5W led lamps

KIT-67041

Kit components:

- 1 pair HID-67 warning cancelling device
- 1 pair LED-041 W21/5W led lamps
