Lampade ricambio a led per mezzi pesanti, auto e moto

Led headlight bulbs for trucks, cars and motorcycles

Progettate e sviluppate per affrontare le condizioni più estreme in cui operano i mezzi pesanti, le lampade LED SERIE TK sono perfettamente compatibili anche con auto e moto.

Grazie ad una tensione di esercizio che va dai 6 ai 60 Volt le lampade Sirius Truck rimangono indifferenti rispetto agli sbalzi di corrente che si possono generare sui mezzi pesanti.

Sono installabili indifferentemente sia nei fari lenticolari che a parabola.

Developed to meet trucks' extreme requirements, TK series led bulbs suit also cars and motorcycles headlights.

Thanks to a working voltage from 6 to 60 V, Sirius headlight led bulbs can handle power surges that may happen on trucks.

TK series bulbs may be installed on parabolic as well as lenticular headlights.

TK SERIES

Intensità luminosa (@ 1mt) per set <i>Light intensity (@ 1mt) for set</i>	4000 Lumen (Abbagliante a parabola)
Profondità del fascio luminoso (> 1 Lux) <i>Depth of the light beam (> 1 Lux)</i>	~85 mt
Temperatura colore <i>Color Temp (K)</i>	6000K
Alimentazione <i>Power (Volt)</i>	da 6 a 60 Volt DC
Assorbimento di spunto <i>Inrush absorption</i>	16 W @ 13,5 V
Temperatura lampada in funzione <i>Lamp temperature in operation</i>	~85° MAX
