

Lampade ricambio

Lampade a incandescenza **OEM Line**

L'offerta di lampade ricambio originali **OEM Line**, è molto completa; oltre alle diffusissime H1, H3, H4 e H7 troviamo le lampadine ricambio per cruscotti e circuiti stampati, per luci di posizione, stop, frecce e targa.

Con la gamma di lampade originali, **BlackLight** si confronta con i big del settore senza alcun timore reverenziale frutto della bontà delle materie prime e la maniacale cura nell'assemblaggio del prodotto in fase di produzione.

Filamento

Realizzato in tungsteno nel rispetto degli standard qualitativi europei

Ampolla

Composta da vetro resistente con filtri UV e contiene gas alogeno o inerte a seconda del modello di lampada

Chassis elettrosaldato

Per un perfetto allineamento tra ampolla e base

OEM*Line*
ORIGINAL AUTOMOTIVE BULBS

Per auto, moto e mezzi pesanti

Le lampade ricambio sono disponibili da 12 e 24 Volt in linea con le richieste di mercato per auto, moto e mezzi pesanti.
